From The Principal's Desk

'RAYS' is budging through a new phase, this magazine has been designed, edited and brought on the table by the young editors of Brighton. It's a moment pride and pleasure to see children growing more responsible day by day and getting mettle. The school has leaped into another session with more errands to shoulder.

Children are always ready to accept the challenges in life its, we, the elders who must provide them an opportunity as well as a dais to express themselves. They must be left alone to stand and walk; unless we rest our faith in them they will never grow to be confident to be a decision maker tomorrow. Rome was not built in a day; a child's personality is never moulded overnight. Give them space and a chance to grow up.

"Learning is not just knowing what to do, but doing what we already know ....."

Help them to discover the talent in them and help us at the same time to nourish it.

Pg-12

INVESTITURE CEREMONY

Shouldering responsibilities and to accomplish it is a learning phase of student's life. Students should not just excel in studies they should also learn to be responsible and do extra work which will help them in their personal and social growth, an important component for one to be successful. Investiture ceremony is not only to decorate the chest with a badge; it's a commitment towards the work accepted and a promise to keep those words.

A team work always reaps triumph, the hands which join together to take on the school to the perfectionism needs to be more rational and coherent.

"Every day may not be a good day but there is something good in every day."

GRADUATION DAY

Kids and their parents keep on waiting for this day to happen. It's really a Hercules job for the kids to start learning. Kudos to the teachers and the young ones to reach the zenith and to prove themselves.

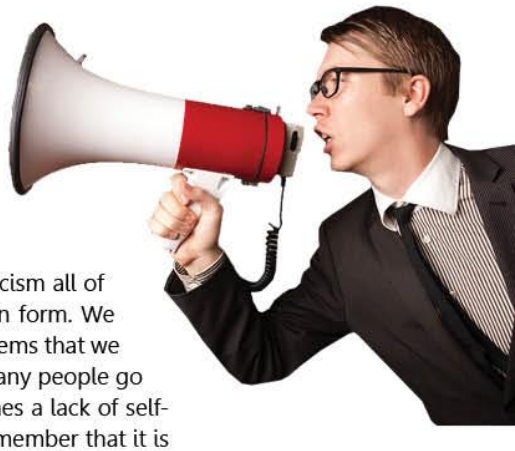

JUNIOR SECTION

The junior are no where inferior to the seniors, they show case their talent when ever they get a platform to do so. Activities get fun filled and enthusiastic when the tiny tots perform.

HAVE COURAGE TO SAY

There is no shame in saying "No I can't". One of the best ways to start the journey of life is by learning how to say 'No'. Without an ability to say no, we cannot be strong and courageous. Thinking everything has to be 'yes' makes us avoid people- avoid life- and this is cowardice in disguise. Eventually failure to say no on behalf of ourselves and other leads to abdication, resentment, and cynicism all of which undercut the production of thematic action. They have false image of God in human form. We should speak bluntly, create firm boundaries or otherwise disrupt the world around him. It seems that we all are in a habit of saying yes. I realize this is not just a challenge that I face, but one that many people go through every day. It is a heavy burden to carry because with the urge to say 'yes' also comes a lack of self-confidence and self-value. We should not apologize and should give all sorts of reasons. Remember that it is better to say no now than be resentful later. Don't say "I will think about it" if you don't want to do it. This will just prolong the situation and will make you feel even more stressed. If you want that same feeling of freedom and then take control, challenge empowerment yourself, and learn to say 'No'.

EQUALITY

Equality is equality
Which is uncommon in reality
It fosters the unity of nation
And demolishes discrimination
It spreads happiness
And wipes sadness
It gives liberty
And increases people's courtesy
It ensures everyone's rights
And reduces the chances of fights
It includes prosperity
It excludes poverty
Oh! I wish I had a magic wand
To make these things come true in a glance.

COUNTRY SIGHTS

A drive in the country,
what an awesome scene!
Miles and miles of wheat field,
growing tall and green.
Farmers driving tractors,
under the hot sun.
Roadside stands with veggies,
food for everyone!
Fields piled with hay stacks,
under a sky of blue.
Cows gently grazing,
horse running free.
Driving in the country,
Its where I love to be!!

I LOVE MY EARTH

When I look up at the sky,
I see the sun shining bright,
And as the day turns into night,
I love the white moon
That comes into sight.
When I turn my gaze towards
The beautiful earth,
I love the fragrant flowers,
And the tall trees
With their lives so long.
When I see the greenery of the forest,
With its variety of wild animals,
The trees giving them shelter to rest
Offering a variety of fruits and flowers
I love my earth.

DIFFICULTIES

Easy is to judge the mistakes of others,
Difficult is to recognize our own mistakes.
Easy is to hurt someone who loves you,
Difficult is to heal the wound.
Easy is to set rules,
Difficult is to follow them.
Easy is to dream every night,
Difficult is to fight for a dream.
Easy is to say we love,
Difficult is to show it every day.
Easy is to make mistakes,
Difficult is to learn from them.

Drugs

In the present scenario drug addiction is playing havoc with the life of young people both in urban and rural areas. It is mainly started with the coming of the hippies to our country more and more young people are falling prey to this death trap. Drug addiction is a serious problem for the youngster in the modern society, it is also harmful for the family and society .People, who feel confused and depressed at a time they take help of these drugs and after taking this they are not able to think even properly and are not able to do what they want to do. If one starts takings drug he drags others also with him to this deadly trap. There are various agencies working to eradicate this social evil. Rehabilitation, love, attention and personal care can only bring the sufferer back into the main stream and help them to live a normal life. We should always be a help to these people and support them back into life.

LIFE

Life is a blessing of god,
with a blend of even and odd.
Life is a collection of blissful memories
with little sweetness and little sourness.
Life is full of struggles,
With hurdles at it's every corner,
Life has many colours and fragrances
But it is hindered with many problems
Though life has many hindrances
But it is prestigious,
So don't let your life slip out
Live it at its fullest.

AARSHI AAGRAWAL

ONE DAY A RICH DAD TOOK HIS SON ON A TRIP TO VILLAGE.

He Wanted to show him how poor someone can be.
They spent time on the farm of a poor family.
Dad asked, "Did you see how poor they are?
What did you learn?".
Son said, "We have one dog, they have four,
we have pool, they have rivers,
we have lanterns at night, they have stars,
we buy foods, they grow theirs,
we have walls to protect us, they have friends,
we have encyclopaedias, they have Bible'
Then They headed,
"Thanks Dad for showing me how poor we are."

MORAL LESSON:

It's not about money that make us rich,
It's about simplicity of having God In our lives.

THE DEW DROP

As the sun rose , a dew drop became aware of its surrounding . There it sat on a leaf, catching the sunlight and throwing it back out . Around of its simple beauty, it was very content. Around it were other dew drops, some on the same leaf and some on the other leaves round about. The dew drop was sure that it was best, the most special dew drop of them all. Wow, it was good to be a dew drop. The wind rose and the plant began to shake, tripping the leaf, terror gripped the dew drop as gravity pulled it towards the edge of the leaf, towards the unknown why? Why was this happening? Things were comfortable things were safe. Why did they have to change? Why? Why?

The dew reached the edge of the leaf. It was terrified, certain that it would be smashed into thousand pieces below; sure that it was the end. The day had only just begun and the end had come so quickly. It seemed so unfair. It tried desperately to do whatever it could to cling to the leaf, but it was no use. Finally, it let go, surrounding to the pull of gravity. Down, down it fell. Below there seemed to be a mirror. A reflection of itself seemed to be coming up to meet the dew drop. Closer and closer they came together with finally. And then the fear transformed into deep joy as the dew drop merged with the vastness and didn't get destroy .It joined other drops and become one with the whole.

CHILD LABOUR

Hopeful eyes, happy smiles
Soft hands, million dreams
Is this not the identity of a child?
Then why do I see
Tear filed eyes, terrified faces
Rough hands, and shattered dreams.
Deprived of their childhood
Overloaded with work
Burdened with responsibility
At such a young age.
So much to barn
So much to accomplish
But not given enough time
Fight for a cause
Raise your voice
Stop child labour
Put a smile that lack on their face
Give the childhood
That was stolen from them.

PRINCIPLES OF LIFE

Never give pain,
Even if you gain.
Never tell a lie
Even if you have to die.
Never be spend thrift
But help the needy
Do not make noise,
Even if you have a choice.
Do not waste your time
Make your life bright
Make your life best
By working without rest
Always be brave
Till you reach the grave.

Khushi Chandra

I WISH

The flower thought, just imagine the fun
If I could fly to any place under the sun!
Determined it spread its wing one day,
Became a Butterfly and fluttered away
The lamp wondered, day after day,
How nice if I could simply fly away!
Undaunted its very own wings it grew
Became a Firefly, and away it flew.
Alas! Thought the pond, how still I lie.
While all the Birds can happily fly!
And so, on wings of mist, one day.
It became a cloud and floated away.

IMPORTANCE OF INDIAN STATES....

Punjab for Fighting.
Bengal for Writing.
Kashmir for Beauty.
Andhra for Duty.
Karnataka for Silk.
Haryana for Milk.
Kerala for Brains.
Tamil for Grains.
Orissa for Temples.
Bihar for Minerals.
Gujarat for Peace.
Assam for Tea.
Rajasthan for History.
Maharashtra for Victory.
Himachal for Cold.
Jharkhand for Bold.
UP for Rice
Arunachal for Sunrise.
Goa for Vine.
Meghalaya for rain.
MP for Diamond.
Sikkim for Almond.
Mizoram for Glass.
Manipur for Dance.
Nagaland for Music.
Chhattisgarh for Physique.
Uttarakhand for Rivers.
Tripura for Singers.

THE POWER OF ONE

One Flower can spread Fragrance.
One Tree can start a Forest.
One Smile begins a Friendship.
One Handclap can list a Soul.
One word can reach the Goal.
One Vote can change the Nation.
One Candle can wipe out Darkness.
One Laugh can conquer Gloom.
One Voice can speak with Wisdom.
One Man can change the World.
You see.....It's Up to You !!!!

LIFE

Life is like Mathematics
In this we add the Friendship
Subtract the enemy
Multiply the joy
Divide sorrow
The one who can solve this equation
Easily gets success in LIFE.

बरसात

टुकड़े-टुकड़े दिन बीता, लंबी काली रात मिली,
जिसका जितना आँचल था, उतनी ही सौगात मिली,
रिमझिम-रिमझिम बूंदों में अमृत सी धारा,
आँखे हंस दी, दिल मुस्कुराया, यही अच्छी बरसात मिली।
जब चाहा दिल मुस्कुराया, हंसने की आवाज सुनी,
जैसे कोई कहता हो, लो फिर तुमको मात मिली।
होठों तक आते-आते जाने कितने राग भरे,
जलती बुझती आंखों में, ठंडक दिन रात मिली।

HA.... HA.... HA....

1. **Teacher :** Students, are the questions difficult?
   Students : No, but the answers are.
2. One day Anil was making a hole in the book.
   Father : Anil, why are you making a hole in the book.
   Anil : The teacher told us to go through it.
3. **Father :** If I had 12 oranges and gave away 3, how many would I have left with?
   Son : I don't know, in my class we do arithmetic with apples.
4. **Little Boy :** I would like to buy a puppy. How much does it cost?
   Shop Owner : Ten Dollar a piece.
   Little Boy : Oh! But what if I want a whole.

हौसले

अपने हौसले के बल पर हम अपनी प्रतिभा दिखा देंगे,
भले कोई मंच ना दे हमको, हम मंच अपना बना लेंगे।
जो कहता खुद को सितारा है, जगमगा कर उनके सामने ही,
चमक कर देंगे, उनकी फीकी और सूरज खुद को बना लेंगे।

AMAZING FACTS ABOUT INDIA

- There are 17 major languages and 844 dialects spoken in India.
- India was one of the richest countries on Earth until the British invasion in early 17th century happened.
- India invented the number system and Aryabhatta was the scientist who invented the digit Zero.
- India is the 6th largest country in the World, the largest Democracy and one of the oldest civilizations.
- India is one of the largest exporters of computer software products.
- The biggest and the largest employer in the World is Indian Railways, employing over a million people.

DIRECT IMAGING – KNOW MORE ABOUT IT

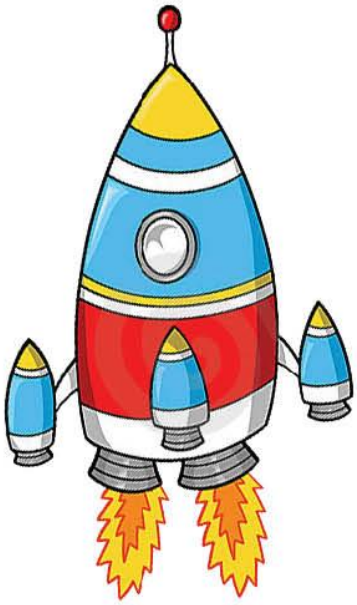

A team of international astronomers for the first time have sighted a Jovian planet orbiting a triple star system. The planet has been named as HD 131399Ab. The strange planet was sighted by team of astronomers led by University of Arizona. Usually binary solar systems are relatively common in the universe, but solar systems involving three stars or more are very rare. Planet HD 131399Ab is located about 340 light years from Earth in the constellation. It is believed to be relatively young, about 16 million years old. This makes it one of the youngest planets discovered outside our solar system till date. HD 131399Ab has mass four times that of the gas giant Jupiter, our solar system's largest planet. It orbits the brightest of the three stars on a very long and wide path. SPHERE instrument SPHERE stands for Spectro-Polarimetric High-Contrast Exoplanet Research Instrument. It is one of the world's most advanced instruments dedicated to find planets around other stars. It is sensitive to infrared light which makes it capable of detecting the heat signatures of young planet. It has ability to correct the image distortion (twinkle) introduced by the Earth's atmosphere. This technique is called direct imaging.

JUNO

Juno is the first mission designed by NASA to see beneath Jupiter's clouds. It has travelled 2.7 billion kilometers since its launch to reach Jupiter. The mission previously was been referred to by the back Acronym Jupiter Near-polar Orbit. It will orbits Jupiter from pole to pole, 5,000 kilometers above planet's cloud tops. It will sample Jupiter's charged particles and magnetic fields for the first time to study its composition beneath the sky. Juno has nine instruments on board to study atmosphere, gravity, magnetic field and possible existence of solid core in Jupiter. Juno will map Jupiter's gravity and magnetic fields and also track how much water is present in the atmosphere

NASA's Juno spacecraft has successfully entered into the orbit of Jupiter on 4th July 2016 and started orbiting solar system's most massive planet. The spacecraft was launched by NASA as part of its New Frontiers program in 2011 to study Jupiter's composition, gravity field, magnetic field, and polar magnetosphere.

मां

भगवान का दूसरा रुप है मां,
उनके लिए दे देंगे जां,
हमको मिलता जीवन उनसे,
कदमों में है स्वर्ग बसा,
संस्कार हमें वह सिखलाती,
अच्छा बुरा हमें बतलाती,
हमारी गलतियों को सुधारती,
प्यार वह हम पर बरसाती,
तबियत अगर हो जाए खराब,
रात-रात भर रहती जागती।

हिन्दी भाषा

प्रकृति की पहली ध्वनि ऊँ है,
मेरी हिन्दी भाषी भी, इसी ऊँ के देन है।
देवनागरी लिपि है इसकी, देवों की कलम से उपजी,
बांगला, गुजराती, भोजपुरी, डोगरी, पंजाबी और कई,
हिन्दी ही है इन सब की जननी।
प्रकृति की हर इक चीज अपने में संपूर्ण,
मेरी हिन्दी भाषा भी अपने में संपूर्ण है।
जो बोलते हैं वही लिखते हैं,
मन के भाव सही उभरते हैं।
हिन्दी भाषा ही तुम्हें, प्रकृति के समीप ले जाएगी,
मन की शुद्धि तन की शुद्धि, सहायक यह बन जाएगा।
कुछ हवा चली है ऐसी यहां,
कहते है इस मातृभाषा को बदल डालो।
बदल सको क्या तुम अपनी माता को?
मातृभाषा का क्यों बदलाव करो।
देवो की भाषा का क्यों तुम तिरस्कार करो।
बदल सको तो तुम अपनी सोच को बदल डालो
हर इक भाषा का तुम दिल से सम्मान करो।
हिन्द की जड़ों पर आओ हम गर्व करें।
